EIRELE JOVEN BOTER

Full Stack Software Engineer | IoT Specialist | Web Developer
Location: Mandaluyong, Philippines | **Email:** eirelejovenboter2@gmail.com | **Phone:** +639606206221
LinkedIn: linkedin.com/in/eirele-joven-boter | **GitHub:** github.com/eirele01

PROFESSIONAL SUMMARY

Results-driven Full Stack Software Engineer and IoT Specialist with 6+ years of experience bridging the gap between physical hardware and cloud software. Proven track record of architecting end-to-end solutions, from scalable GCP infrastructure and database schemas to real-time IoT dashboards and multi-tenant SaaS platforms. Trusted by enterprise-level clients to lead the full software lifecycle of intelligent Building Management Systems (iBMS), Robotic Process Automation (RPA), Computerized Maintenance Management System (CMMS), and Fintech applications. Adept at translating complex raw IoT data into intuitive, user-friendly experiences and delivering high-availability systems on Google Cloud Platform.

TECHNICAL SKILLS

- **Frontend:** Vue JS, Nuxt JS, React JS, Next JS, Inertia JS, Tailwind CSS, ShadCN Vue, Reka UI, HTML5, CSS3, JavaScript, TypeScript
- **Backend:** PHP, Laravel 6-13, RESTful APIs, HTTP APIs, WebSockets, MQTT Protocol,
- **Mobile:** Java (Android), Flutter, Dart
- **IoT and Hardware:** SwitchBot Devices, LoRaWAN Devices, Sensor Integration, BMS, RPA, CMMS
- **Cloud and DevOps:** Google Cloud Platform (GCP), App Engine, Compute Engine, Cloud Run, Cloud Tasks, Docker, VPS, CPanel
- **Databases and Tools:** MySQL, Firebase Realtime Database, Firestore, Supabase, Git, GitHub, Postman, Figma

WORK EXPERIENCE

Full Stack Software Engineer / IoT Specialist | **Tensei Philippines Inc.** | *2024 - Present*
*Led the full software lifecycle of enterprise IoT and automation platforms (iBMS, RPA, CMMS, Fintech) for top-tier institutional and hospitality clients, including **Ayala Malls, Department of Science and Technology (DOST), Ascott Makati Hotel, Somerset Millennium Makati, The Linden Suites, and Enspace**.*

- Architected end-to-end software solutions, designing database schemas, RESTful APIs, and hardware-to-cloud protocols (MQTT, WebSockets) to support 1,000+ concurrent IoT device connections with 99.9% uptime.
- Designed and implemented responsive UI/UX dashboards using the VILT Stack (Vue 3, Inertia JS, Laravel, Tailwind CSS), translating daily raw IoT telemetry data into intuitive visual analytics.
- Built cross-platform mobile applications using Java, providing 100+ users with on-the-go access to device management and reducing manual monitoring time by 99% via real-time push notifications.
- Deployed and scaled highly available environments on GCP (Docker, App Engine, Compute Engine, Cloud Run) capable of ingesting 1000+ data points per minute.
- Engineered automated and manual test suites (Unit, Integration, E2E), handling IoT edge cases such as device latency and disconnects, reducing post-deployment bugs to near zero.
- Maintained Git/GitHub version control with structured branching and peer code reviews; authored comprehensive API documentation via Postman and Swagger for cross-functional teams.

Full Stack Web and Mobile Developer | **Freelance** | *2019 – Present*
Independently designed, developed, and deployed production-grade SaaS and web products from concept to launch.

- **Duff Street Clinic (duffstreetclinic.com.au):** Developed a high-traffic, mobile-responsive web platform for a major Australian medical centre (50+ doctors), featuring integrated online booking, telehealth access, and dynamic service directories. Stack: WordPress, Elementor.
- **Reservation PH (reservationph.com):** Architected and launched a complete, multi-tenant SaaS booking platform for service businesses. Engineered end-to-end features including real-time scheduling, PayMongo payment integration (GCash, Maya), loyalty programs, automated email notifications, and analytics dashboards. Stack: Laravel 12, Next JS, Inertia JS, Tailwind CSS, ShadCN, GCP.
- **BaganiVPN:** Built a web admin panel and VPN client application supporting 500+ active resellers and end-user subscriptions. Stack: HTML, CSS, JavaScript, PHP, MySQL, Java, CPanel, VPN Protocols.

- **BrilliantPOS:** Developed a multi-tenant SaaS POS platform with cloud-based inventory replenishment and workforce management, adopted by 250 retail and service businesses. Stack: Laravel 7, Tailwind CSS, MySQL, CPanel.
- **Upload2Earn:** Architected a containerized content monetization platform processing 100,000+ daily downloads ($10 per 1K downloads), deployed on GCP via Docker. Stack: Vue JS, Inertia JS, Laravel 8, Tailwind CSS, MySQL, GCP, Docker.
- **PinoyInternetHub:** Engineered a secure, anonymous browsing platform monetized through advertising, generating 1,000 monthly active users. Stack: Vue JS, Tailwind CSS, PHP, Firebase.

Seafarer (Able Seaman) | **Wallem Philippines Shipping, Inc.** | *2016 - 2019*

- Executed critical navigation and helm duties on international voyages, maintaining strict adherence to global maritime safety and compliance protocols in high-pressure environments.
- Collaborated with diverse cross-cultural teams to manage complex port operations and respond to emergency and crisis situations.

Operations Manager | **Yellow Cab Pizza Co.** | *2014 - 2016*

- Managed shift operations and a team of 25 staff members for a high-volume food service branch, optimizing daily workflows and maintaining rigorous safety standards.
- Handled inventory control, labor costs, and staff performance evaluations, consistently achieving a customer satisfaction score of 100%.

EDUCATION

Web Development Level 3 | **AMA Computer College** | *2019*

BS Marine Transportation (BSMT) | **NAMEI Polytechnic Institute** | *2014*

CERTIFICATIONS AND TRAINING

- Udemy — Full Stack Web Development (HTML, CSS, JavaScript, PHP, Laravel)
- Udemy — Vue JS 3: Advanced Component Design and Composition API
- Udemy — Laravel: API Development, Authentication, and Multi-tenancy
- Udemy — Flutter: Cross-Platform Mobile Application Development

LANGUAGES

- Filipino — Native
- English — Fluent (Professional Working Proficiency)
- Japanese (Nihongo) — Beginner, JLPT N5 in progress
